

## ***NEXT STOP JAPAN!***

Well things are getting exciting for the four teams who are off to Japan for the Tsukuba event.

Two 40 foot containers arrived at Sumo Power for the export loading and it was time to say goodbye to the cars until we see them again in December.

They will leave the UK and transit for 26 days by sea to Tokyo where they will be unpacked and taken to the holding garage by Do-Luck & Sumo Power Japan until the teams arrive at the beginning of December.

The plan is that the teams will take part in a track day at Tsukuba the day before the main event in an attempt to set the cars up for the track and conditions and then its all or nothing for the UK teams on 6th December.

Here's whose going:-

Zen Performance Subaru Impreza - Paul Blamire (Owner)

---

RC Developments Mitsubishi Evo 6 - Clive Seddon (Owner)

Fensport Toyota Celica GT4X 4WD - Adrian Smith (Owner)

Sumo Power Nissan 350Z - Andy Barnes (Owner)

The loading was fun and a first time experience for most of the teams, here's a few more snaps of what went on, we will be keeping you updated of news as and when it happens!
