

ARRIVED!

Thursday 29th November, all four UK Time Attack cars are unloaded in Tokyo ready for the teams to arrive this weekend.

The guys from Do-Luck & Sumo Japan kept an eye over the proceedings whilst Glen was our man on the scene taking the snaps.

The cars are now laying in wait, ready to pounce at the Do-Luck shop and more pictures should follow soon.

The schedule (which is a tough one and not much sleep to be had) is test at Tsukuba on Tuesday & Wednesday 4th/5th December and then its show time on Thursday 6th and our teams chance to show just what they are made of.

Will they crack the minute barrier? Will they manage to beat the current records? who knows, stay tuned for more information!

Our continued thanks go out to those who have helped with this mission and sponsoring us on this amazing trip including; Do-Luck, Toyo Tyres (UK/EU/JP), Japaneseusedcars.com, HKS, Autoglym, ARC, TM Works, Revspeed, Sumo Japan, Blitz, DAMD, Sunoco, Power Enterprise and everyone else behind the scenes making it happen.

Back soon with updates as and when they happen.

Sayonara for now!
