

### All Cars - general

The 2017 MSA Time Attack Championship is open to cars of any recognised manufacture or body profile which are, or have previously been, available as a production vehicle. All cars must retain the original chassis/bodyshell, except Pro Extreme, where the silhouette of the bodywork must resemble that of a recognisable production car above the waistline. Any modifications to the chassis/body must be submitted for pre-approval by the Championship Scrutineer. Single-seaters and open-wheeled vehicles are not permitted. Commercial vehicles and kit cars will only be permitted at the Organiser's discretion.

### Club Classes

#### Clubman and Clubman+

An entry-level category for mildly modified cars and ideal for those used for trackdays. The class is split into Clubman for lower-powered and Clubman+ for higher-powered cars.

#### Pocket Rocket

A class for smaller cars and hot hatches that were originally fitted with an engine no bigger than 1750cc or less. Capacity can be increased if the OE engine is retained. Tuner modifications are allowed.

#### Club

The most popular level of competition for cars that are tuner modified to a certain level. The class is split into three categories: 2WD and 4WD.

### Pro Classes

#### Club Pro

For more modified cars and those with sequential gearboxes, but running on treaded road-based tyres in the dry. Racing wets may be used. The class is split into two categories: 2WD & 4WD.

#### Pro

For highly modified cars. Racing slicks and wets can be used. The class is split into two categories: 2WD & 4WD.

#### Pro-Extreme

As long as it's based on a production model, almost anything goes! The class is split into two categories: 2WD & 4WD.

### Classic & Retro

This class is for cars that are 25 (or more) years old. Regulations according to the Club and Pro classes apply. Classes are defined when the technical specification of the cars running is known.

### Tyres

Club and Club Pro classes will use tyres from the Pirelli Trofeo R range, with Pro and Pro Extreme classes able to use Pirelli racing slicks. There are exceptions for wet conditions and for cars that require a unique size of tyre that cannot be supplied by Pirelli.

## 2017 MSA Time Attack Championship

### Minimum Requirements & Options

Compulsory = C Recommended = R Optional = O Not Allowed = X

Safety	Clubman Classes	Pocket Rocket & Club Classes	Club Pro, Pro & Pro Extreme Classes	Notes
Race suit - MSA specification	C	C	C	See MSA year book: Club classes: K 9.1.4 / Pro Classes: K 9.1.1
Helmet - MSA specification	C	C	C	See MSA year book K 10.2.1 (a)
Race boots - MSA specification	C	C	C	See MSA year book K14.3 (d)
Race gloves - MSA specification	C	C	C	See MSA year book K14.3 (e)
FHR device	R	R	C	
MSA/FIA rollcage	R	R	C	Compulsory for soft top cars in all classes
Door bars	R	R	C	Compulsory in Club classes if doors are changed or lightened
Race seat	R	C	X	
MSA race seat	R	R	C	Must be in date
4 point harness	C	C	X	
5 point harness	R	R	C	Must be in date
1.75Ltr FOAM fire extinguisher	C	C	X	
Plumbed in fire extinguisher 2.25 Ltr	R	R	C	
External circuit breaker / cutout	R	R	C	
Towing eyes	C	C	C	
Engine firewall - steel	C	C	C	
Boot firewall - steel	C	C	C	Not required if no part of the fuel / oil / fluid system is in the boot
2-litre capacity oil breather catch tank	C	C	C	Unless OE system is retained
Exhaust silencers - 105Db maximum	C	C	C	
Headlights/indicators/brakelights	C	C	C	All lights must be working and effective
Rear rain/fog lamps	C	C	C	Cartek rear warning lamp will double as rain/fog light
Cartek rear warning lamp	R	C	C	Except Clubman Classes and 1st time Single Round Entries
Windscreen wipers/washers	C	C	C	

Other items
