Welcome to the 20th anniversary of the UK Time Attack Championship. Whether you are a returning competitor or a newcomer to the series, we invite you to join us for an eight-round season that takes place over seven event weekends at six of the UK's top circuits. Much of the calendar has been retained to ensure the championship continues to deliver fantastic value for money and attracts large and enthusiastic audiences to the well-established accompanying shows.

The season features eight single-round events on seven different circuits at six venues. As well as the Time Attack Championship, each event includes a round of the Racing Hondas Championships and a round of the Racing Touring Cars Championship, a package that provides an intriguing mix of top-level, national motorsport and an action-packed year ahead.

These Championship Regulations are set out in accordance with the Motorsport UK [National Competition Rules \(NCR\) 2025](#), specifically [Ch.14 App.5](#). In addition, the following has been compiled taking into account the unique format of Time Attack and the knowledge gained from running 19 previous seasons.

It is imperative that you read the following information thoroughly, even if you have competed before, in order to ensure you are fully conversant with the contents and aware of any changes and amendments that have been made to that of previous years' regulations.

- Club Category Classes: RS Inter Club (or higher status)
- Pro Category Classes: Race Club (or higher status)
- Overseas drivers: National Competition Licences issued by countries outside the UK will be deemed valid for British events, providing the following applies and competitors obtain approval from their own ASN **as per NCR Ch.6 App.3 Art.1.6-1.8**. Eligibility must be agreed in advance of entry.

1.3.2 A competitor shall not take time off school to participate in motor sport without the prior written approval of their school. If participation in the Championship requires absence from school, Drivers in full time school education are required to have the approval of their head teacher and a letter stating such approval from his/her school in order to fulfil registration for the Championship.

1.3.3 Whether signing on is carried out electronically in advance or in person on the day of the event, all documentation must be available for checking at each round.

1.3.4 Competitors must ensure their entered vehicle complies with the conditions of eligibility and safety throughout Warm up, **Attack 1, Attack 2 and the Super Attack** sessions.

1.3.5 Drivers who have not previously held a competition licence will be observed during the first two sessions by the Clerk of the Course. It is the driver's responsibility to report this fact in advance of the event starting.

1.3.6 Any driver who has not competed in at least five car-races or Time Attack events, a yellow square measuring 7"x7" with a black diagonal cross of strokes 6" long and 1" wide, must be affixed to the rear of the car. In cases where organisers are unaware of the number of events contested, a driver may be asked to provide proof in order to remove the black cross. This can be done by gathering signatures from the Clerk of the Course following an event, submitting copies of the official results with the driver's name included on the finishers' list, or completing an upgrade card that can be downloaded from the Motorsport UK website and submitting this card to the Championship Secretary. It is a driver's responsibility to observe this regulation. Failing to do so will result in a penalty being applied or disqualification from the event.

1.3.7 Anyone who has held a Competition Licence during 2023 or 2024 and can produce written proof of having been classified as a finisher in at least eight Rallycross, or five Time Attack Hot Lap Challenge events during that time and who passes a written examination **as per NCR Ch.6 App.5 Art.3c**.

1.4 Registration

1.4.1 Drivers are invited to register by joining Club Time Attack and paying the annual membership fee of £80. Club registration does not guarantee entry. Championship registration will commence from the publication of these regulations.

1.4.2 Competitors are invited to apply for entry by completing and submitting the official online application form and paying the correct fee by the closing date, as follows:

- Club Classes:** Single payment option - to be paid before 24th March 2025: £2,550 (includes £270 annual registration fee)
Round-by-round payment option - £270 annual registration fee to be paid before 28th February 2025.
Then £310 per round, payable before the latest entry/payment date (Appendix B). Total season cost £2,750.
- Pro Classes:** Single payment option - to be paid before 24th March 2025: £3,050 (includes £270 annual registration fee) Round-by-round payment option - £270 annual registration fee to be paid before 28th February 2025.
Then £372 per round, payable before the latest entry/payment date. (Appendix B) Total season cost £3,250.
- Single Round:** Club Classes: £370 - payable before the latest entry/payment date (Appendix B). Total season cost if all rounds entered £2,960.
- (No Championship Points)** Pro Classes: £430 - payable before the latest entry/payment date (Appendix B). Total season cost if all rounds entered £3,440.
- Late payment fee:** A surcharge of £50 will be applied for entries and payments made after the latest payment date (Appendix B), but before the end of the week. After that time, entries will not be accepted.
All figures include VAT.

Reference should be made to the championship entry form for details and methods of payment (see **Championship** regulation 6.1).

1.4.3 If any rounds are cancelled, competitors will be eligible for a refund/credit of applicable value.

1.4.4 **Phased Payment Plan Terms & Conditions:** The round-by-round payment instalment plan option is offered to and agreed by competitors by Time Attack Ltd to assist in spreading the cost of entry across a longer period to benefit a competitor by reducing the initial impact of entry cost to the Championship, which they have freely chosen to enter. Consequently, this arrangement between the competitor and Time Attack Ltd is binding and will stand as agreed until such time as all payments have been made by the competitor to Time Attack Ltd in full. Whether a competitor enters each and all events in the Championship, the amounts due on the specified dates will stand and must be paid in full without deduction, delay or offset regardless of cause. For the avoidance of doubt, this covers all circumstances including but not limited to scenarios such as changes in personal circumstances, issues and problems with competing vehicles, damage, engine failure, team members etc. Any amounts paid may not be carried over to cover future events, unless agreed in writing.

Competitors entering into the payment agreement do so knowingly and agree that the amounts will be paid in full and on time as specified. No refunds for deposits or entry payments will be given at any time (including early and one off season payments) and the purchase of the entry and any payment plan is done so by the competitor on these terms alone. If payments are not made on time or are defaulted upon, Championship status will be revoked, points and achievements declared void and legal action to recover any outstanding amounts including any legal costs will be sought. The Championship has been organised for each competitor for an entire competition year and therefore the terms of payment, the commitment to them and the responsibility to pay on time and in full are unique and legally binding. Upon signing the entry form, competitors will be bound by these payment terms (if chosen) in which case it shall supersede any previous agreements whether in writing or verbally.

Any instalments that fall due and are not paid on time and become outstanding for a period longer than 5 days beyond the agreed date will incur an automatic admin surcharge of £50 to each payment which is late.

Paid up Round by round Entries may be substituted to another driver, only twice per season, round by round subject to an admin fee of £80+vat each time subject to final approval by Time Attack.

No entries may be substituted after the entry cut-off date for each round and no refunds will be made. The substitution may only be for the same main class of entry, i.e Club or Pro.

Any driver wishing to delay their paid up entry to a later round in the same year may do so as long as it was paid and advised prior to the cut-off date for the original round entered and subject to a £80+vat admin fee and for the same class. Should this not be the case the entry may not be moved and no refund or entry substitution may take place.

Substitutions will not be eligible to score points when taking substituted rounds.

Existing declared full season entrants may not be substitutions for another competitors entry.

A full season paid up entrant under special circumstances may apply for a refund of any remaining rounds and only with final approval By Time Attack only to the value of 70% of the remaining fee appropriate to the remaining rounds excluding VAT.

Full season entrants may not substitute entries at any time.

Round by round payment point scoring drivers may apply for approval to exit the Championship at any time due to unforeseen circumstances subject to approval by TA but will still be responsible for 30% of the remaining unpaid balance for the season.

It is the drivers responsibility to make each round and or make provisions for appropriate substitutions or delays in entry by advising Time Attack of the same. Under no circumstances may a refund be given once paid up, it may only be substituted or delayed in the same competition year.

Any entry not used, delayed or substituted within the appropriate timeframe will be forfeited.

1.4.5 All applications will be considered by Time Attack organisers before entry is confirmed. This process includes allocation into the class deemed most appropriate. To achieve this, further details, proof of lap times and photographs of the competing vehicle may be requested. The organisers may require the vehicle to be observed on the track in order to establish performance. The decision regarding class allocation will be that of the organisers, who's ruling will be final.

1.4.6 Submission of the entry application form and the payment of the fee does not guarantee entry. Organisers reserve the right to refuse entry without giving a reason.

1.4.7 Competitors wishing to be assured championship entry should register and pay the entry fee before the last payment date. Competitors may register for the championship after this date and at any point during the season following agreement with the organisers.

1.4.8 Registration numbers will be issued to each driver. These will be the permanent competition numbers for the season and will be allocated on a first-come, first-serve basis, unless a number has been held during the previous year in which case it will be reserved until the entry closing date.

[This may include non-attended rounds. Dropped scores will include all points at that round, however scored.](#) If six or less rounds are held, competitors will subtract the points from their lowest scoring round towards their final total. This also applies where cosmetic modifications have been carried out that do not provide a performance advantage, in order to classify a car in the class in which it would be mechanically

compliant and therefore, comparatively competitive. In these cases, competitors may apply for a dispensation that must be approved by the Championship Scrutineer before the start of the season or the meeting entered. The Championship Organisers' decision on which cars are eligible for the class will be final, notwithstanding a competitor's right to appeal. A list of approved dispensations will be published. Dispensations cannot be carried over from a previous season, or in the case of a single round entry, a previous meeting.

- a: Seal the car and/or its components so that the competitor - at their own expense - can present the car for a detailed inspection at another location chosen by the Organisers, within a specified period and/or remove the car to an appointed location. The competitor will be advised in writing of the time, date and location of the subsequent testing or eligibility examination. Seals must not be broken from the time of application until the time of the inspection. If a seal is found to be broken without the scrutineer being present, a penalty will be applied as set out in section 4 of these regulations.

- 5.4.2 The Organisers reserve the right to re-inspect vehicles at any time during the course of the season, should there have been a Regulation infringement or circuit incident.
- 5.4.3 Competitors will be personally and solely responsible for ensuring their cars comply with the details provided when registering and with these regulations. Failure to comply in either respect will be deemed a breach of these Regulations. Queries concerning eligibility should be referred in writing to the Coordinator/Championship Scrutineer at least seven days prior to entering an event, to allow time for a ruling to be made.

This provision is in place to encourage new teams to join the Championship and keep initial costs low to convert SRE entrants into season competitors in future.

No lap records will be recorded by an entrant not using Yokohama tyres.

Tyres shall be supplied by Yokohama's appointed sales agent, Tegiwa.com. Special pricing for teams will be applied and tyres may be branded and marked as to confirm the compliance and supply. A further technical bulletin of this subject may be issued in future.

In the event that tyres are branded by Yokohama or Tegiwa, retro branding of existing AO52 tyres that have been previously purchased and or used by an entrant may be requested.
