## TUNERFEST NORTH OULTON PARK 2025

Welcome to Tunerfest North  
Powered by Lucas Oil at Oulton Park.

Get ready for a full day of motorsport, modified car culture, and high-octane entertainment as Oulton Park plays host to a major celebration of performance tuning, grassroots motorsport, and all things automotive.

### Track Highlights

Taking centre stage is the **Racing Hondas Championship**, with a packed grid of 30 race-prepped machines pushing the limits through Oulton Park's demanding corners and straights. Expect edge-of-your-seat action as drivers fight for glory in a fierce display of speed and skill. You'll also witness the explosive return of the **Time Attack Championship**, where some of the UK's most finely tuned cars battle the stopwatch to post the fastest laps of the day.

### Drift, Show, and More

Enjoy the raw style and control of **Drift Pro Exhibitions**, with top-tier drifters laying down clouds of tyre smoke in high-speed tandem runs. Want to get closer to the action? Hop in for a **Drift Taxi ride** and experience sideways thrills from the passenger seat FOR JUST £35!

Oulton Park

### Off-Track Attractions

There's just as much going on away from the tarmac:

- **Adam C – YouTube Sensation:** Meet the man behind the camera and catch exclusive content live from the show.
- **Crazy Cart Rides:** Slide, spin, and drift your way around our dedicated crazy cart zone – fun for all ages!
- **ABRUZZI Simulator Zone:** Feel the rush of racing with our full-motion simulators – experience what it's like to be in the driver's seat of a high-performance machine.
- **OBSSESSION Car Show:** Marvel at an elite collection of handpicked show cars, each a standout in style, build quality, and individuality.
- **Club Displays & Trade Stands:** Explore rows of enthusiast club cars and browse the latest products from the tuning scene's leading brands and innovators.

Whether you're here for the competitive racing, mechanical excellence, or the buzzing paddock atmosphere, Tunerfest at Oulton Park is an unmissable showcase of the UK's tuning and motorsport culture.

### PS.

Don't forget, all the on-track action is available to watch live on your phone either here today or from the comfort of your home later, via our official livestream courtesy of Lucas Oil.

TIME ATTACK 

2025 TIME ATTACK CHAMPIONSHIP

# WHO CAN BUILD THE QUICKEST CAR?

# LET'S FIND OUT...

Oulton Park sees the 5th round of the Time Attack Championship, celebrating 20 incredible years since our very first event at Rockingham in 2005.

Time Attack has become one of the most exciting and engaging motorsport disciplines in the UK and it remains truly unique worldwide. Over two decades, it has attracted a passionate community of drivers, teams, fans, and tuners, all determined to answer the ultimate question: who can build and drive the fastest car around a circuit?

This year's calendar features eight rounds across six of the UK's premier circuits, including a welcome return to Scotland's iconic Knockhill later in the season.

## How It Works

Competitors are divided into three sessions based on the type of car they drive and the level of modifications:

### Session 1

- Classic & Retro:** Cars that are 25 years or older
- Clubman:** Road and track day cars with limited modifications
- Pocket Rocket:** Smaller engined cars & hot hatches

### Session 2

- Club:** Two and four-wheel-drive modified cars

### Session 3

- Club Pro:** Highly-tuned cars running on road tyres
- Pro:** Heavily modified cars running on slick racing tyres

“TIME ATTACK HAS  
BECOME ONE OF  
THE MOST EXCITING  
AND ENGAGING  
MOTORSPORT  
DISCIPLINES IN THE  
UK AND IT REMAINS  
TRULY UNIQUE  
WORLDWIDE.”

### TIME ATTACK CHAMPIONSHIP 2025 CALENDAR

R1	5 May	Cadwell Park
R2	26 May	Donington Park
R3	15 June	Brands Hatch
R4	27 July	Snetterton
R5	25 August	Oulton Park
R6	7 September	Brands Hatch
R7	27 September	Knockhill
R8	19 October	Snetterton

**FOLLOW ALL  
THE ACTION!**

Each event features four sessions per class – Warm-Up, Attack 1, Attack 2, and the decisive Super Attack Final.

Each car has a square decal on the rear to show its classing for ease of following the competitor. For example, PR = Pocket Rocket Class and so on.

New for our 20th anniversary, points are now awarded based on lap times in *all* sessions, culminating with the largest points haul available in the Super Attack Final. It's not about track position, it's all about setting the quickest single lap.

Adding further competition are our Single Round Entrants (SREs): drivers who make one-off appearances without

committing to the full season. Their participation brings fresh variety and impressive performances to every event.

All competing cars must run on Yokohama tyres to score championship points and set official records. Club classes use the outstanding Yokohama A052 road-legal tyre, while Pro classes use full racing slicks and wet tyres – the ultimate choice to set the quickest time.

You'll find the full entry list opposite and event timetable elsewhere in this programme – and don't forget, you can also watch the action unfold live on our Time Attack YouTube channel and social media.

Visit [www.timeattack.co.uk](http://www.timeattack.co.uk) to find out more  
and follow the live timing from today's event.

# ATTACK!!!

Whether you've seen The Stig flying around a track on Top Gear or marvelled at the performances at the Goodwood Festival of Speed, you've already witnessed the spirit of Time Attack but this is it, today you'll see it in its genuine form.

Born on the racetracks of Japan, Time Attack has evolved into one of the most captivating forms of motorsport. It inspires drivers and tuners worldwide, united by a single goal: to set the fastest lap of the day.

It's the ultimate test of car and driver, pushing production-based vehicles to their limits and beyond. Balancing raw engine power, chassis dynamics, aerodynamic performance, and ultimate precision, all against the clock.

Since launching in the UK in 2005, Time Attack has grown into the largest and most respected championship of its kind in the world. In 2010, it received full recognition from Motorsport UK, with its own unique regulations, cementing its status as an

“IT'S THE ULTIMATE TEST OF CAR AND DRIVER, PUSHING PRODUCTION-BASED VEHICLES TO THEIR LIMITS AND BEYOND.”

official form of competitive motorsport in the UK. Our classing system allows a vast range of cars and drivers to compete meaningfully from near-standard road cars in Clubman, right up to extreme, high-horsepower machines in the Pro classes. As cars evolve and lap times improve, reclassification ensures fair competition across the field.

Events are held at the UK's leading race circuits, with official timing by TSL, guaranteeing every lap time is credible, accurate, and officially recorded.

Best of all, it's accessible. Entry-level Clubman classes are open to drivers with lightly modified road cars, no full race licence required.

Pro classes, featuring the most extreme builds, require a competition licence, but allow virtually unlimited creativity and engineering.

#### Think you have what it takes?

SNETTERTON 2025 RECAP

# ROUND FOUR RECAP

# THE THRILL OF DRIFTING:

## UK DRIFT SCENE AND DRIFT PRO EXHIBITIONS

Drifting remains one of the most exhilarating disciplines in motorsport, captivating fans with its blend of precision, power, and pure spectacle. With origins rooted in the mountain passes of Japan, this high-adrenaline sport has gained a loyal following in the UK, thanks in part to the rise of the Drift Pro Exhibitions and iconic venues like Brands Hatch Circuit. Here's a look into the art of drifting, its storied history, and what you can expect from one of the UK's premier drifting showcases.

### What is Drifting?

Drifting is a technique in which the driver deliberately oversteers, causing the rear wheels to lose traction while maintaining full control of the car through a corner. Unlike traditional racing, where precision and lap times dominate, drifting emphasizes style, consistency, and the ability to hold long, controlled slides. The very best drivers transform each lap into a performance, managing throttle, steering, and momentum in a fine-tuned balance that creates a visual spectacle of smoke, speed, and drama.

### The Origins of Drifting

Modern drifting began in Japan during the 1970s. Kunimitsu Takahashi, a former motorcycle champion, was among the first to adopt aggressive cornering techniques in car racing, inspiring a new wave of drivers.

Keiichi Tsuchiya, known globally as the "Drift King," took things further. His now-iconic Pluspy video, which featured his downhill drifting on Japanese touge roads, ignited a worldwide fascination with the sport and helped formalize drifting as a competitive discipline.

### Drift Pro Exhibitions - The UK's Premier Drifting Showcases

The Drift Pro Exhibitions represent the pinnacle of drifting events in the UK. These showcases bring together elite-level talent, finely tuned drift cars, and immersive fan experiences in a celebration of skill and speed.

#### Key features of Drift Pro Exhibitions include:

- **Class Talent:** Expect to see some of the UK and Europe's top drifting professionals, each bringing their own technique and flair to the track.
- **Challenging Circuits:** Every venue is carefully selected for its technical layout, demanding precise car control and quick reflexes from every competitor.
- **Fan Engagement:** With access to the Hyper Paddock, spectators can meet drivers, snap photos, get autographs, and get up close to the machines behind the action..

DRIFT PRO CHAMPIONSHIP

### The Oulton Experience

The Drift Pro team will bring the roof-down action: turbocharged drift cars powered by expert drivers launching huge angles, sliding through corners in formation with smoke trailing their every move. Perfect precision meets raw aggression in these adrenaline-fueled demos.

Nestled in the Cheshire countryside, Oulton Park isn't just a picturesque motorsport venue—it's also a thrilling proving ground for the UK's drifting scene. Known for its flowing curves, tight chicanes, and elevation changes, the track provides a perfect mix of technical and high-speed sections that challenge even the most experienced drifters. During drift events, parts of the circuit, particularly areas like the Shell Oils Hairpin, Knickerbrook, and the Avenue—are transformed into smoke-filled arenas where drivers showcase their skill, style, and car control. The layout rewards bravery and commitment, making tandem battles particularly exhilarating for spectators.

# A SUPERCAR Spectacle

PRESENTED BY THE  
National Supercar Owners Private Members Club

SPONSORED BY  
Pro-Speed Finance

We are thrilled yet again to introduce an impressive range of Hyper and Supercars, showcased in the paddock by the National Supercar Owners Private Members Club.

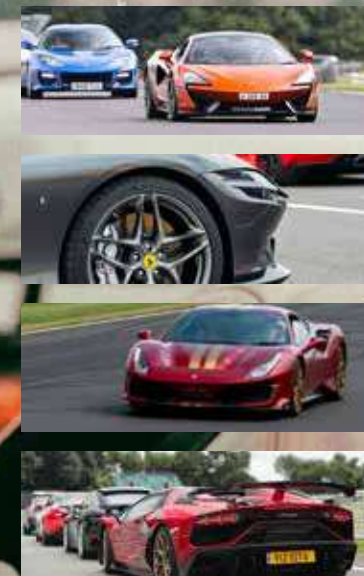

A leading Supercar and Specialist car club based in the UK. Established by Steve Rowell and with a huge membership of car enthusiasts from across the UK. The club offers its members the chance to fully enjoy their remarkable vehicles in different ways at different events.

The club, sponsored by Pro-Speed Finance, experts in performance, modified, supercar and family car finance, looks to offer the motorist a better and more cost-effective option to that of standard dealer finance.

Collaborating with various businesses and organisations to organise events and activities for its members, including scenic drives on some of the UK's and Europe's best driving roads, exclusive visits to interesting venues, and participation in shows like the one happening today. Owners delight in sharing their love for cars with fellow enthusiasts. This awesome collection of cars will take to the track at 1.00pm in a Supercar Parade and will be on display throughout the rest of the day in the paddock.

Unforgettable sights and sounds.

See them on track at 1.00pm.

# DRIFT PASSENGER EXPERIENCES JUST £35 PER RIDE!

Ever wondered what it feels like to be in a car sliding sideways on purpose? Now's your chance to experience the thrill of drifting from the passenger seat of a fully prepared drift machine, driven by a professional, for just £35 per ride. Head over to the Drift Passenger Area at Oulton Park, located centrally in the venue on a purpose-built drift area, and get ready for an unforgettable ride.

Drifting is one of motorsport's most exciting and visually spectacular disciplines. It's not about finding the fastest line—it's about balance, precision, and style. Imagine the roar of the engine, the screech of the tyres, and the adrenaline rush as you slide through tight transitions, high-angle slides, and rapid direction changes. It's a full-body experience that defies conventional driving and delivers pure excitement.

As a passenger, you'll feel the raw power and control as the driver expertly balances throttle, steering, and braking to keep the car dancing sideways. It's a perfect blend of skill, aggression, and finesse that has to be felt to be believed.

## **Bring your sense of adventure!**

This experience is open to anyone aged 12 and over, whether you're a die-hard motorsport fan or simply looking for a one-of-a-kind thrill.

Brought to you in partnership with **PH Drift**, one of the UK's leading drift experience providers, known for delivering high-quality, unforgettable rides.

Don't miss this unique chance to get closer to the sport, feel the rush, and discover why drifting is one of the most exhilarating forms of motorsport.

At just **£35 per ride**, you can't afford to miss out—**see you at the purpose-built Drift Passenger Area in the heart of Oulton Park!**

# RACING HONDAS GO INTERNATIONAL

If you enjoy the sound of a Honda K24 or K20 engine at maximum revs, then you're in for a treat this bank holiday Monday as the Racing Hondas Championship takes to Oulton Park's full-length International circuit. *Carl McKellar reports...*

After taking both wins at Snetterton, Will Self now leads Class A – the championship's fastest tier for near-prototype cars. Those results have moved him past Philip Wright (Civic EP3) and Kevin Talbot (Integra DC5), who'd topped the standings since Cadwell Park's opening rounds in April.

Self and Talbot have three wins apiece with Wright on two in their fierce fight for supremacy at the front. But several others are either still in the mix or capable of stealing away valuable points as the season enters its second half...

Liam Collins (Integra DC2), the qualifying and lap record-holder who won here last year, is yet to taste victory in 2025.

Tommy Knight (Civic EK) and Bob Barron (EG) have also been on the podium, whilst Dave Bukey, Fraser McNeill, James Alford (all in EGs) and James Kiff (Integra DC5) are always top three contenders.

Self vs Wright: Class A leaders Will Self (left) and Philip Wright arrive at Oulton separated by just a point

## CHAMPIONSHIP INFO

The Racing Hondas Championship, run by the successful Club Time Attack organisation, features a variety of Honda models, split into three clearly defined classes based on cars' power-to-weight ratio:

- **Class A: 240 bhp/ton (or 235bhp if supercharged)**
- **Class B: 195 bhp/ton**
- **Class C: 176 bhp/ton**

Identical points are awarded to the top 10 finishers in each class per round:  
**15-12-10-8-6-5-4-3-2-1**

Self vs Wright: Class A leaders Will Self (left) and Philip Wright arrive at Oulton separated by just a point

Bonus points (all 3 classes per race):  
**5-4-3-2-1 to the top 5 qualifiers\***  
**1 point to the driver setting the fastest race lap**

Drivers' end-of-season total are their best 14 scores from the season's 16 rounds (although the final 2 rounds at Snetterton cannot be dropped). The driver with the highest final score – regardless of the class in which they compete – shall be crowned overall Champion.

\*Race 2 features a 'reversed grid draw' (positions 4-8 in each class) following Race 1's result.

#### Class C

1	Matt Rowling	62 Pts
2	Callum Houchen	46 Pts

Rowling vs  
Houchen: Class  
C protagonists  
Matt Rowling and  
Callum Houchen  
do battle

All the above use Honda's high-revving K24 or K20 engines in their cars which will surely be on full song along Oulton's high-speed stretches...

With seven wins from eight rounds, Dan Thackeray's command of the EP3-dominated Class B has given him a healthy outright championship lead from Motion Motorsport team-mate Ryan Cunningham.

Both, though, are being pushed hard by their nearest

opposition which includes Ben Sharpe Racing pair Sam Linssner (who split them at Snetterton) and Lewis Barker, Sammy Mileham and Spencer Fortag in his lone Civic FN2.

After two exciting duels at Snetterton, Matt Rowling (EP3) and Callum Houchen (FN2) resume their battle in Class C.

“...HONDA'S HIGH-  
REVVING K24 OR  
K20 ENGINE...  
WILL SURELY BE ON  
FULL SONG ALONG  
OULTON'S HIGH-  
SPEED STRETCHES...”

Collins: Liam Collins holds both Oulton's qualifying and race lap records

# CAR CLUBS

## & INDIVIDUAL EXHIBITS

We're absolutely delighted to welcome such an incredible turnout of car clubs and enthusiasts this year. With more than 1000 vehicles on display from over 70 different clubs across the country, this event stands out as one of the largest and most exciting gatherings we've ever held at Oulton Park.

In addition to the club stands, we're also showcasing a fascinating mix of individual exhibits. These are presented by dedicated owners who aren't affiliated with any club but whose cars are more than worthy of the spotlight. This year, we're proud to feature 50 of these exceptional entries, each adding a unique flavour to the show.

We've completely revamped our club competition categories this year, creating more opportunities than ever to be recognised for the passion, creativity and dedication that go into each display. There are now nine awards up for grabs, each celebrating different aspects of club presentation and community spirit.

- Overall best presented stand, recognising layout, display creativity and the atmosphere you create
- Overall best selection of cars, celebrating variety, rarity and the stories behind your vehicles
- Overall largest club stand, honouring those with the most impressive turnout
- Best small club for clubs with fewer than 20 cars
- Best medium club for those displaying up to 50 cars
- Best large club for those showing more than 50 vehicles
- Best single make club, where one brand is showcased in standout style
- Judges' choice, a special pick that simply caught our attention for all the right reasons
- Best charity effort, awarded to clubs that go above and beyond to support a great cause
- Individual club car of the show, highlighting one outstanding car from a club display

Also new for this year are those clubs that win and want to display at Modified Live in Snetterton on Sunday October 19th, will be eligible to win the Club of Clubs Club of the Year Award.

This year's event is a true celebration of community, creativity and automotive passion. Whether you're here to show, to spectate, or simply to enjoy the atmosphere, thank you for being part of what makes this day so special.

We hope you have a fantastic time.

# Obsession

## CAR SHOW

Redefining the traditional show and shine format, Obsession is a new kind of automotive experience. This is where outstanding builds, cutting-edge style, and meticulous attention to detail come together in a fresh, curated setting. Set against the backdrop of some of the UK's most iconic racing circuits, Obsession is a celebration of creativity, individuality, and craftsmanship in modern car culture.

At the heart of the event is our expansive marquee, featuring a selection of hand-picked vehicles that push boundaries and turn heads. Thoughtfully designed staging, immersive lighting, and an ambient soundscape create an atmosphere that highlights each car's unique character.
